Program Assistant

2006 We began by serving the towns of: Exeter, Greenland, Hampton, North Hampton, Rye, Seabrook and Stratham

Since then we added:

2008 Hampton Falls

2012 Kensington

2018 Brentwood

2021 East Kingston

TAKE A RIDE THROUGH THE YEARS

11/30/2006

TASC's First Ride

TASC's first passenger was a nonagenarian. Over the years we've helped quite a few folks in their nineties; some, veterans of WWII .

- At age 19, George was stationed in the Pacific Theater.

- Lonnie survived Pearl Harbor.
- Barbara mapped locations in the Pacific as a cartographer.

In 2010 Dana lost most of her vision.

As a single mom, she needed help getting to parent-teacher meetings & other school events as well as medical appointments. TASC was there for her. We even got her to a surfing lesson!

Dana rides the waves!

No one act of kindness, however small, is wasted.

2016—TASC GETS A WHEELCHAIR VAN

TASC acquired a wheelchair accessible minivan in 2016. With a small group of specially trained volunteer drivers, we've been able to provide service to our community neighbors who depend on wheelchairs and other mobility devices.

The van is not only key to accessing medical care, it has enabled those who need it to do many things that others take for granted.

Chris was able to engage in his civic duty; he voted!

TASC does more than medical rides

BARBARA NICHOLSON

Barbara relied on our wheelchair van for her appointments it's true. However, her family was most grateful to TASC because we were the only service that would take Barbara to her daughter's wedding!

Volunteer drivers are always needed!

- You decide how many rides you're able to give.
- You choose where you drive.
- You decide the time of day that works for you.

If you can't be a driver, we hope that you'll find a way to support TASC .

There is always something you can do:

- Help spread the word that TASC needs more drivers
- Like us on Facebook ...
- Like us on Instagram ...
- Share our posts!

With your help TASC can continue strengthening our communities by helping our neighbors in need of a lift!

We also were able to grant her 2020 Christmas wish to ride around town and see folks' light displays.

TASC will try to fulfill any request, as long as we have a driver available for the ride.

IN 2020, COVID19 TURNED THE WORLD UPSIDE DOWN!

Margie and MaryEllen became fast friends!

We all know how awful so many people felt during the height of the pandemic. Imagine how difficult it was for our older neighbors.

Many have extremely fragile immune systems; they were being actively treated

for chronic illnesses and disease whose care couldn't be put off.

TASC drivers stayed the course!

TASC's drivers made sure that our most vulnerable neighbors continued to get to vital health care treatments.

The big bonus is that they made friends along the way, at a time when being with a friend was rare.
